### Message from Catholic Charities Behavioral Health Services

Our mental health services are open in both locations, Danbury and Norwalk. The clinic offices are closed; however, telehealth counseling services are operating very well. The telehealth platforms we are using are HIPPA compliant and have been approved by Medicare, Medicaid and most commercial insurance companies at this time. We are supporting all of our current caseload and providing service to new clients that are calling and requesting therapy services.

People in need of mental health support can contact our Danbury program which serves Danbury and the surrounding towns @ 203-743-4412. Anyone living in Norwalk and the surrounding towns can contact us @ 203- 750- 9711.

In an Emergency, call 911 or go to your nearest hospital.

Our team is pleased that we can continue to provide professional mental health services to anyone in need.

Social distancing, washing your hands, keeping busy, having a daily routine, connecting with family members & friends via telephone/Facetime are the strategies to follow right now.
